Accommodation

After the success of Dream villa one, we have decided to develop a second dream villa project. In dream villa two the plot sizes will be significantly larger and the living space will be increased by over 30 square meters. The layout of the villa will be nearly the same however we have added a few additional features, such as a larger terrace area on the first floor and larger bathrooms. Each villa will have four bedrooms, four bathrooms, of which two will be en-suite bathrooms, two walk in closets, an open plan kitchen, dining room and lounge, private swimming pool, Jacuzzi and a large expanse of terraces around the property. The penthouse floor will also have a large terrace area so that one can experience the best views. There will also be private parking for each villa and private gardens.

Property Details:

This beautiful new development is set back in the Taurus Mountains, with breathtaking views of the Mediterranean Ocean and Castle of Alanya. Its only a short distance from the world wide famous Cleopatra beach resort, were you will find numerous shops, restaurants, cafes, bars and boutiques. There are 8 exclusive luxury villas being constructed. What's more, due to building regulations, properties being constructed in this area have a maximum height of two floors, so the views will be unhindered and the area will retain its charm and exclusiveness. The site will also have a private entrance which will be serviced by an asphalt road. The site is surrounded by pine trees and orange trees and has fantastic views of the Taurus Mountains and valley.

Other Informations

This development is of the highest standards, all the material used being of TSE standards (The Turkish equivalent to British standards). Each villa will have marble floors throughout, granite worktops, a choice of ceramics for the bathrooms, fully fitted kitchen, bathrooms and air conditioning. There will also be a site maintenance and security service. We also provide assistance with furnishing your new home. Turkish Homes 4 less will also issue a five year warrantee with every new home.
